

Chairman Powell, please remember that you work for us, the American People. Take a look at all the correspondence you are getting from the American Public - from all political parties and all points of view. Notice that no one but the few very rich and very greedy heads of a few corporations approve of your plan to relax the regulations regarding media ownership. Do your duty, sir! Do your job! You are there to protect us and our best interests - NOT to further your future political career or financial success by toadying to a few billionaires. Be our hero - do the right thing and do NOT relax these regulations!
